

Dear MRFA Members,

We are happy to offer the following discounts to restaurant members of the MRFA.

5% discount on our NCR Aloha restaurant Point of Sale system*

NCR Aloha is the market leader globally for Restaurant and Hotel Point of sale. With our agreement, NCR and POS offer a completely new maintenance model that is not replicated in our marketplace: **Whole unit replacement**. This means equipment is replaced not repaired, year after year.

WE'VE GOT YOUR BACK.

No one takes care of restaurants like NCR. We help you operate with efficiency, manage for smarter operations and engage with your customers in real-time.

We are NCR. We can help you:

- Increase speed of service
- Engage with your customers
- Gain real-time data anytime, anywhere
- Protect your bottom line and deter theft
- And much more!

NCR is a 6 Billion dollar corporation and their product ALOHA has over 100,000 installations in North America. That is 22.7% of the total Hospitality Market. They are the leader in restaurant and hospitality sales and installations.

Through a local team with a global presence, you'll benefit from:

- A trusted team you can reach any time
- Local help desk support
- Deep knowledge of and commitment to the industry
- Access to NCR's global resources

With changes in the industry, changes among technology providers and opportunities to connect with your customers like never before, the POS Systems team's got your back.

GLOBAL PRESENCE. LOCAL FOCUS.

Serving restaurants in Manitoba
for 35 years.

10% discount on our three or five day Hospitality Training course*

As you are aware POS Systems has created a curriculum for entry level positions within the hospitality industry. Employment opportunities are everywhere, sometimes you just need an advantage!

POS Systems is a Manitoba corporation that has educated Employees, Management and Owners on the point of sale industry for 35 years. Until now that training has been available in-house only for their existing customer base.

Now we are introducing it to anyone who seeks a desire to enhance their employment opportunities, advance their careers or improve their business's bottom line.

We ask the question: What is the starting career for most people? The answer is usually work in a restaurant. By taking that first step in education and

training in this type of environment through professionals in the industry, the likelihood of employment chances are increased.

In addition, existing restaurant managers and owners may desire to participate in these workshops to have the ability to analyze what areas of their business need attention. Increasing profits, growing staff and customer satisfaction through our training workshops, while gaining the ability to give an overall assessment of their business is an invaluable tool. The skills we offer stay with our students and travel with them for life.

We desire to empower rural areas through education and entrepreneurialism. The belief is that these communities will gain in strength and numbers as their own people strive to create new businesses, and allow others to stay and work in their localities due to the fact that they will have the skills needed to keep those areas thriving.

There will be a certificate of training given upon completion of each course, as well as a reference opportunity to any job opportunities that may exist with the restaurant customers of POS Systems.

This is a unique program offered by POS Systems. Our curriculum has taken years to create and includes agendas for specific training, curriculum outlines, text booklets as well as certificates upon completion.

Sincerely,

POS Systems
