

Health Inspections

In an effort to keep our members informed, we remind you all that health inspections may occur at any time.

Recently, it has come to our attention that health inspections are increasingly being conducted outside of the common daytime working hours, sometimes occurring in the evenings and weekends, in an effort for Manitoba Health to stay on top of the large number of establishments within our province that need to be inspected regularly.

We are happy to help any of our members who may have questions or concerns. Please call us at 204-783-9955 if you are looking for any information or guidance on this or any other issue.
