

One Month Job Interview

Try Our Students Before You Buy

Accounting and Payroll Professionals

We have students keen to make your business run more smoothly and handle all your accounting needs.

Our students are Canadian Payroll Association accredited and can handle all your daily bookkeeping needs too.

The best part is that you can try them out **FREE** for one month. The work experience or practicum offers on-job experience to our students and gives you a chance to evaluate them as potential employees before committing to a job offer.

We graduate quarterly, so please contact us soon to ensure you book your student, as supplies are limited.
